

What Is Claimed Is:

1 1. An inflatable product, including:
2 a first chamber;
3 a pack having an air intake connected to the outside of
4 the first chamber and a first air outlet connected to the
5 inside of the first chamber;
6 a fan and motor received in the pack for inflating air
7 from the outside of the first chamber through the air intake
8 into the pack and then from the air outlet into the the first
9 chamber.

1 2. An inflatable product as claimed in claim 1, further
2 including a second chamber, and the pack further having a
3 second air outlet connected to the second chamber so that the
4 fan and motor pump air into the second chamber through the
5 second air outlet.

1 3. An inflatable product as claimed in claim 2, further
2 including a first valve for opening and closing the first air
3 outlet, a second valve for opening and closing the second air
4 outlet, and a valve switch to selectively open the first
5 valve or the second valve.

1 4. An inflatable product as claimed in claim 1, further
2 including a second chamber and a two-way valve device
3 connected between the first and second chambers so that the
4 air in the first chamber flows into the second chamber
5 through the two-way valve device.
